56VFG03G	180 LUMENS 	Green (532nm)				

55FW04

LUMENS 250

Weapon LED Light

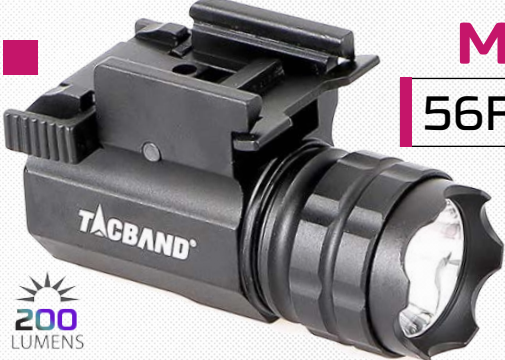

dimensions:- 26 × 38 × 79 mm

A compact, high-performance tactical flashlight designed for full-size pistols. Delivers a powerful 250-lumen beam with both constant and strobe modes. Built from CNC-machined aircraft-grade aluminum and fitted with an optimized reflective cup for strong central and peripheral illumination. Features a latch-style ambidextrous switch, quick tool-free rail mounting, and IPX4 weather resistance. Runtime up to 75 minutes on a single CR123 battery.

56FW04MINI

LUMENS 200

MINI LED Weapon Light

dimensions:- 26 × 38 × 79 mm

A reduced-size version of the FW04, ideal for compact pistols with shorter accessory rails. Offers a strong 200-lumen beam with constant and strobe options. Lightweight at only 72g and splash-resistant to IPX4 standards. Runs up to 35 minutes on a CR2 battery.

COMPACT GREEN Laser Sight 56LS15G

Wavelength: 520nm

Ultra-compact precision green laser sight with windage and elevation adjustment. Runs on a built-in rechargeable Li-ion battery with magnetic charging cable included. Provides up to 60 minutes of continuous runtime. Operating temperature from -15°C to +50°C. Extremely lightweight at only 26g.

PISTOL LIGHT Ultra Bright Torch 500 LUMENS

Flood powerful beam up to 184m

56FW26-5H LUMENS 500

A lightweight, powerful tactical light for handguns equipped with 1913 Picatinny or Glock rails. Produces a concentrated 500-lumen beam (also available in 300-lumen configuration) reaching up to 184 meters. Features ambidextrous controls, a removable head for battery access, and rechargeable 16340 power with included USB charging cable. Drop-rated to 1 meter and adds less than 58g to the pistol.

Lumens Weapon Light & LASER 56FW19G LUMENS 1000

A high-output tactical light and laser combination engineered for duty-grade performance. Features a super-bright 1000-lumen LED, integrated Class IIIa green laser, and three operation modes: Laser Only, Light (constant or strobe), and Laser + Light. Includes a wireless remote switch, magnetic charging, and robust aluminum housing. Easily mounts to standard Picatinny rail

56VFG03R COLOR RED

56VFG03G COLOR GREEN

FLASHLIGHT

180 LUMENS And LUMENS COMBO Laser

A rugged dual-function unit constructed from 6061-T6 aircraft aluminum. Combines a 180-lumen CREE LED flashlight with an integrated red or green laser ($\leq 5mW$). Adjustable windage and elevation, quick-mount crossbar system, and strobing/constant light modes. Powered by two CR123A batteries.

56LS01G

GREEN LASER POINT Tactical Laser Sight

A durable and accurate green laser sight built from aircraft-grade aluminum. Quickly attaches using a spring clamp compatible with Picatinny and Weaver rails. Easy latch-style switch for positive ON/OFF control. Powered by a CR123 battery with up to 4 hours of Tactical operation. IPX4 splash-resistant.

FEATURE HIGHLIGHTS

- » Unique Flat Shape for Portability
Designed for pocket-friendly carry with a side clip for quick access.
- » Laser for Precision Tasks
- » High-visibility laser provides pinpoint accuracy for work, alignment, and tactical applications.
- » USB-C Rechargeable
- » Fast and convenient recharging for everyday use.
- » Tough 6061 Aluminum Body
- » Built to endure harsh outdoor conditions.
- » Powerful Illumination
- » 1000-lumen brightness with a clean beam and two lighting modes.
- » Weather Resistant
- » IPX6 waterproofing ensures reliable function in rain and wet environments.

Specification	Details
Lumens (Max Output)	1000 lm

PRODUCT DESCRIPTION

The STRIKE X1 Tactical Flashlight is designed for professionals, outdoor enthusiasts, and survivalists who demand power, reliability, and versatility. With a maximum brightness of 2200 lumens, this flashlight illuminates even the most challenging conditions. Its built-in pressure switch allows immediate operation, while three adjustable modes provide the right light intensity for any scenario. Constructed from durable 6061 aluminum, it is waterproof, shockproof, and drop-resistant, making it a trusted companion in harsh environments. The integrated USB-C rechargeable battery ensures long-term, eco-friendly use, and a beam distance of up to 300 meters gives unmatched visibility.

Specification	Details
Light Source	SST40-WXS, 6500K LED
Lumen Output	300-2200 lm
Battery	Built-in 952052P*2 / 2000 mAh / 3.7 V rechargeable lithium
Body Material	6061 Aluminum
Dimensions	166.1 × 34.5 × 33.6 mm
Weight	250 g
Beam Distance	300 m
Modes	Default Low / Medium / High / Strobe
Runtime	78 min
Charging Port	USB-C (5V) with included cable
Charging Time	3 h
Waterproof	IPX6
Shockproof	1000G
Drop Protection	1 m
Color Options	Black / Desert

FEATURE HIGHLIGHTS

- » Extreme Brightness: Up to 2200 lumens for superior illumination.
- » Versatile Modes: High, Medium, Low, and Strobe for different tactical scenarios.
- » Durable Build: Aircraft-grade aluminum body with water and shock protection.
- » Long Beam Range: Up to 300 meters for extended visibility.
- » Rechargeable & Eco-Friendly: USB-C rechargeable lithium battery, reduces disposable battery use.

PRODUCT DESCRIPTION

The FORAY Tactical Flashlight is engineered for law enforcement, outdoor enthusiasts, and survivalists who need a combination of power, reliability, and tactical versatility. With brightness ranging from 300 to 2200 lumens, it provides ample illumination for any scenario. The built-in pressure switch allows rapid activation without fumbling. Designed from

durable 6061 aluminum, this flashlight is waterproof, shockproof, and drop-resistant, ensuring dependable performance in demanding environments. It features a beam distance of up to 300 meters and a USB-C rechargeable battery for long-lasting, eco-friendly use. The V1 version is compatible with Picatinny rails, while the V2 version is compatible with M-LOK rails. integrated USB-C rechargeable battery ensures long-term, eco-friendly use, and a beam distance of up to 300 meters gives unmatched visibility.

FEATURE HIGHLIGHTS

- » Extreme Brightness: Adjustable lumen output for tactical flexibility.
- » Versatile Modes: Low, High, Strobe for different operational needs.
- » Durable Construction: Aircraft-grade aluminum with waterproof and shock proof protection.
- » Long Beam Range: Up to 300 meters for superior visibility.
- » Rechargeable & Eco-Friendly: USB-C rechargeable lithium battery.
- » Mounting Flexibility: V1 for Picatinny, V2 for M-LOK rail systems.
