EMA01 Hear clearly and stay protected with the Series Low Profile Electronic Ear-Muffs.

TYPE	Description
Noise Cut-Off Threshold	Cuts off sounds louder than 85dB
Microphones	4 omni-directional high-gain mics for voice amplification
SNR Rating	Tested SNR of 27dB
Comfort	Optimized ear cushions and ultra-slim ear cups for extended wear
Fit	Adjustable headband for different head sizes
Audio Input	3.5mm jack for music or device connection
Power Supply	2x AAA batteries (not included); approx. 200 hours runtime
Use Case	Ideal for shooting, training, and clear communication

✓ USES BATTERIES

Designed with 4 high-gain omni-directional microphones and an SNR of 27dB, these earmuffs amplify voices while cutting off noises above 85dB. The ultra-slim ear cups ensure a comfortable fit for long sessions, with a 3.5mm input for music and up to 200 hours of runtime powered by 2 AAA batteries.

SHOOTING GLASSES

TYPE	Description
Lens System	5x replaceable polycarbonate lenses
Inner Frame	Detachable inner frame for dioptric adjustment (prescription-ready)
Lens Coatings	Anti-fog, Anti-scratch, Anti-reflective, Mirror coating, Polarizing film
Impact Resistance	Bulletproof polycarbonate lenses; scratch & impact resistant
Polarization	Reduces glare from water, highways, and other flat surfaces
Comfort & Fit	Lightweight, durable, non-slip frame; elastic anti-slip strap
Certification	ANSI Z87.1 Certified
Portability	Includes portable EVA case
Weight & Fit	Sporty low-profile design, fits most faces, stays in place during sweat

Engineered for harsh environments, these **ANSI Z87.1** certified shooting glasses come with 5 interchangeable polycarbonate lenses and a detachable inner frame for prescription use. Designed with multiple coatings — anti-fog, anti-scratch, anti-reflective, and polarized — they reduce glare, block impact, and stay fog-free even under pressure. The lightweight, non-slip frame with an elastic strap ensures a secure, comfortable fit for any activity. Includes a portable EVA carry case.
